WHY DOES IT EXIST?

The ever growing demand for fast, efficient and affordable health to cater for both individuals, societies and employers of Africans in the UK.

At ABX Health we understand that the diaspora forms an integral part of today's African economy. Through the support they provide to their families they are a vital cog to their societies and home country economies.

While they make enormous personal sacrifices throughout their working life, many remain vulnerable during those moments when they are in the most need. Hence the need to create a health, social and lifestyle protection safety net.

AxxessDIAS provides you as a member of the diaspora with a platform enabling you to obtain access to affordable health that is uniquely designed and built around your circumstance as African. Its configured to take into account one's individualised needs and ensures alignment to the budget constraints.
